

"MB Docket No. 04-233"

1. We love K-LOVE my kids love to listen to the positive uplifting music with a positive message. It's sad these days that most all the other radio stations play music that children shouldn't be listening to.
2. We would be so sad if we no longer could turn on our radio to hear klove and positive music for my family. I'm sure whatever you would replace them with would not be as such a loving station as K love is.
3. There are many people that would be affected if we no longer could hear the safe loving christian music and positive words of the family orientated radio station.

I surely hope that you don't take this great positive station off the air. There isn't much positive to listen to on the radio - have a listen :)

Sincerely, kimberly rylicki
